XENON eXtreme™ RX993i G3

This Intel® Core™ i9 Cascade Lake X system delivers 10 Cores, 19.25MB of L3 cache. Overclocked with XENON proprietary BIOS and XENON closed loop liquid cooling, this complete system is engineering and tested so every part works in harmony to deliver a consistent 5.1GHz speed and low latency connectivity. Combined with up to 256GB DDR4 UDIMM memory, 4 x hot swappable 2.5" drive bays, this system delivers performance and memory capacity for all your High Frequency Trading requirements.

XENON's eXtreme HFT Server Solutions are:

- Designed specifically for low latency algorithmic trading by selecting best of breed components
- Designed for maximum performance with safely overclocked processors and memory
- Tested extensively for durability to ensure 24 x 7 operating time
- A scalable architecture with predictable performance that adjusts to meet business requirements
- Equipped to handle extremely volatile periods of market activity without loss or downtime
- Compact 1 Rack Unit (RU) design
- Backed by 24 x 7 Global Onsite Warranty Support Options
- Certified by local authorities for use in China (CCC) and Korea (KC)
