

Accelerating Results with Innovation and Partnership

- Australian company established in 1996
- Global Onsite hardware support and installation services in over 80 countries
- Direct Relationship with all major component manufacturers to lower cost and speed up support
- In-house technical ability to build low volume custom designed servers
- Focused on innovation and investment in Research & Development

- Oil & Gas
- Health & Life Science

- Defence
- Education
- Broadcast
- Media & Entertainment

Specialist High Performance Solutions and Managed Services in AI, HPC and Enterprise Infrastructure

Decades of High Performance Solutions

Our customised technology solutions and products are designed to tackle the most data intensive and complex visualisation challenges, allowing our clients to do great new things, and break new ground in their respective fields.

1996

XENON Systems was established

1998

Telstra Digital Video Network Supplied Video Server equipment

THALES

2005

Thales Defence Supplied Image Generators for the ASLAV simulators

2007

Victorian Partnership for Advance Computing Supplied HPC Cluster for Advance Computing

2012

Fuiitsu Supplied Infiniband Network for Australia's largest Supercomputer ("Raijin")

University of Queensland FlashLite HPC cluster system for high data throughput

Garvan Institute of Medical Research NVMe solution that enables high data throughput

2016

Oil Search Deployed Intel® CAS to speed reservoir modeling

2018

Harrison.ai Democratising reproductive healthcare through AI

2020

CSL Limited Professional Services HPC Cluster

2020

Todd Energy HPC Cluster for Todd Energy in Wellington, NZ

2021

XENON Cluster Stack Launched containerised HPC solution

2022

XENON Cloud Launched HPC cloud computing

1996 2000

2000

Animal Logic Render Farm delivered for the "Matrix" movie trilogy

ANIMALLOGIC

2004

TataSky DTH India Supplied Video Logging solution

2009

CSIRO (10th in Green500 ranking) Supplied Australia's first **GPU Cluster**

2011

Australian Stock Exchange (ASX) Supplied Infiniband equipment

2011

Fox Broadcasting USA Supplied Video Logging solution

2013

Digital Cinema Systems Upgraded 150 Independent Cinemas in ANZ region

2015

Thales Defence

Delivered High Fidelity Solution for Australian Army Tiger Helicopter Simulator

2015

Futuris XENON drive high performance innovation

Private Cloud For **Next Generation** Cancer, Disease & Medical Research

2017

WEHI

2017

Supercomputer dedicated to scientific research & technology innovation

2019

Pawsey Supercomputing Centre

2020

New GPU Cluster for Pawsey Supercomputing Centre, Perth WA

2021

Murdoch Children's Research Institute Implementation of a backup solution

Intelligence Institute

Deakin University

Applied Artificial

AN 181 day 20

2021

Hong Kong Uni HPC Deployed HPC Cluster with XENON Cluster Stack

2022

2022

WEHI Implemented a new HPC scratch storage

with VAST
